# THIRUNAVUKKARASU M

## FRONTEND DEVELOPER

Velachery, Chennai | +91 9790097802 | thirumsd946@gmail.com | LinkedIn | GitHub | Portfolio

## PROFESSIONAL SUMMARY

Frontend Developer and Computer Science Engineering graduate with hands-on project experience building responsive, component-based web applications using React.js, JavaScript (ES6+), HTML5, CSS3, and Bootstrap. Skilled in CRUD interface development, REST API integration, state management with Context API, client-side data persistence, and PDF/report generation. Completed a certified Full Stack Web Development training program covering React, JavaScript, Java, and SQL. Focused on writing clean, debuggable frontend code and building usable, responsive interfaces.

## TECHNICAL SKILLS

**Languages:** JavaScript (ES6+), Python, SQL, HTML5, CSS3

**Frontend:** React.js, Context API, Bootstrap, Responsive Web Design, DOM, Component-Based UI

**Backend / APIs:** Django, Flask, REST APIs, API Integration

**Database / Storage:** MySQL, SQL, LocalStorage, Client-Side Data Persistence

**Tools / Libraries:** Git, GitHub, VS Code, Postman, jsPDF, html2canvas

**Core Concepts:** CRUD, State Management, Form Handling, Debugging, MVC/MVT, Agile-style Iterative Development

## TRAINING & CERTIFICATION

**Full Stack Web Development (React, JavaScript, Java, SQL) — with AI Tools**
NSIC Technical Services Centre, Chennai | Dec 2025 | Grade: A

## PROJECT EXPERIENCE

### Employee Management System

GitHub ↗

*Tech: React.js, JavaScript, Bootstrap, HTML5, CSS3, LocalStorage*

- Developed a responsive CRUD web application in React to add, view, edit, and delete employee records, handling 100+ records with instant search and filtering.
- Implemented sorting, pagination, and a dashboard statistics panel, and used LocalStorage to persist data across sessions with zero backend dependency.
- Built a fully Bootstrap-based responsive UI, tested across mobile and desktop breakpoints.

### Currency Converter

GitHub ↗

*Tech: React.js, Exchange Rate API, JavaScript, HTML5, CSS3*

- Built a responsive React.js currency converter integrating a real-time Exchange Rate API, supporting live conversion across 100+ currencies.
- Implemented a one-click currency swap feature and reusable, component-based architecture to keep the UI maintainable and mobile-friendly.

### Parking Slot Booking Finder

GitHub ↗

*Tech: HTML5, CSS3, Bootstrap, JavaScript, LocalStorage, jsPDF*

- Developed a responsive multi-page parking discovery and booking application, covering search, filtering, sorting, slot selection, and end-to-end booking workflows.
- Implemented dynamic slot availability, automated fare calculation, favourites, booking history, and a reviews/ratings system backed by LocalStorage.
- Integrated jsPDF to auto-generate downloadable parking passes, removing the need for manual confirmation screenshots.

### Shopping Cart & Invoice Application

GitHub ↗

*Tech: React.js, Vite, JavaScript, React Icons, jsPDF, html2canvas*

- Built a React + Vite shopping cart application with product listing, add-to-cart, quantity controls, a cart drawer, and real-time cart count updates.
- Implemented a full checkout workflow with dynamic total calculation and one-click downloadable invoice generation using html2canvas and jsPDF.
- Structured the app into reusable App, Product, Cart, and Navbar components to keep state and rendering logic isolated.

## EDUCATION

Bachelor of Engineering (B.E.) — Computer Science and Engineering
St. Peter's College of Engineering and Technology, Avadi, Chennai | 2022 – 2026
